

Overlap Analysis of LLMC-Digital Holdings

This overlap assessment is based on a January 2012 sample of 5% of LLMC-Digital's holdings, (excluding 826 titles relating to U.S. state law). The resulting sample included 180 titles, which were compared with holdings in other subscription databases as well as online open sources.

Of the 180 titles in this sample, 41 (22.7%) were unique to LLMC. Most of these dealt with the British Empire, including titles on Iraq, Canada, Australia, Ireland, Anguilla, Malaysia, South Africa, and India. Several titles in canon law and U.S. military jurisprudence appear to be available online only through LLMC.
